

JULIET COLBY
Art Teacher

I believe that because God created us in His image, there is a basic desire in each of us to create. For some people it's music, poetry or dance, but for others (like me) it's visual arts.

I feel that my job as an art teacher is to provide opportunities and guidance to the children as they explore a variety of materials, tools and techniques to create fun projects while learning basic elements & principles of art, famous artist and art styles. I believe in the importance of process more than production, therefore students will not have a new project to take home every week.

My goal is to motivate my students to look at their world through "Artist eyes", to see & appreciate the beauty all around us and the many ways/styles that artists use to express the beauty that inspires them.
